written notice cancellation clause, in such minimum amounts as may be established from time to time by the city council by resolution.

(Code 1960, § 7249; Ord. No. 1337, § 1, 4-25-77)

Sec. 19-72. Same—Exemption.

Single-family homeowner permittees are exempted from section 19-71 provided they supply evidence of having current public liability insurance coverage having a minimum of three hundred thousand dollars (\$300,000.00) combined single limit liability.

(Code 1960, § 7249.1; Ord. No. 1330, § 2, 2-28-77)

Sec. 19-73. Street cut moratorium on newly improved streets.

(a) For streets, alleys, and public places that were reconstructed or overlaid, the following shall apply:

- (1) No non-emergency street cuts will be permitted for a period of three (3) years from date of completion.
- (2) In case of a justified emergency (i.e. gas leak, etc.) or where streets cuts have been authorized by the public works director/city engineer (such as in the case of a major development requiring sewer or other utilities) within three (3) years following the completion of reconstruction or overlaid project, the permittee will be required to grind one and one-half (1½) inch of existing asphalt, curb to curb and repave the surface for a distance of at least twenty-five (25) feet (for a traverse street cut) and up to one (1) lane width (for a longitudinal street cut) beyond each side of the trench using a properly licensed contractor.

(b) For streets, alleys, and public places that were slurry sealed, the following shall apply:

- (1) No non-emergency street cuts will be permitted for a period of two (2) years from date of completion.
- (2) In case of a justified emergency or where street cuts have been authorized by the public works director/city engineer within two (2) years following the completion of

slurry sealed, the permittee will apply a Type II slurry using a licensed road slurry contractor over the surface, curb to curb, for a distance of at least twenty-five (25) feet (for a traverse street cut) and up to one (1) lane width (for a longitudinal street cut) beyond each side of the trench. Utilities shall determine alternate methods of making necessary repair work to avoid excavating in newly improved streets, alleys, and public places.

(c) Emergencies (exceptions) are defined as follows:

- (1) An emergency that endangers life or property.
- (2) Interruption of essential utility service.
- (3) Work that is mandated by the city, state, or federal legislature.
- (4) Service for buildings where no other reasonable means of providing service exists.
- (5) Other situations deemed by the city council to be in the best interest of the general public.

(Ord. No. 2083, § 1, 4-16-02)

Editor's note—Ord. No. 2083, § 1, adopted April 16, 2002, set out provisions pertaining to street cut moratorium on newly improved streets to be codified as § 19-66. As § 19-66 pre-existed said ordinance, these provisions have been included as § 19-73 at the discretion of the editor to read as herein set out. See the Code Comparative Table.

Secs. 19-74—19-80. Reserved.

DIVISION 2. PERMITS*

Sec. 19-81. Required.

No person shall make any excavation or perform any other work in or under the surface of any street, alley, sidewalk, easement or other public place in the city without first obtaining from the city engineer a written permit to make such excavation or perform such work.

(Code 1960, § 7201)
